Narayana Junior College, AP

90.7%

TECHNICAL SKILLS

Programming Languages: JAVA, PYTHON, C++, C

Web development: HTML, CSS, JavaScript, Angular

Other: MySql, Microsoft Office, Power BI, ChatGPT

SOFTWARE DEVELOPER INTERN

Miracle software Systems, Visakhapatnam, AP

May – June, 2023

During my internship, I had the opportunity to work on diverse assignments involving **MySQL, Java, SpringBoot, HTML, CSS, JavaScript, and Angular**. These experiences enhanced my skills in software development and provided practical insights into real-world projects.

PROJECTS

JobSeeker

- I acted as a Front-end developer, worked on the login and registration page of JobSeeker **UI** and **graphic design**. By using **Angular**. It connects **two** crucial areas: the website design and the back-end development. This project was designed to help the unemployed people.

Netflix user web page clone

- It is related to Front-end development. I worked on the login page of Netflix using **HTML, CSS, Javascript**. By using this I created a clone of a user Webpage (Netflix).

AWARDS

- Secured **1st prize** in the **Coding & Decoding** event at BLITZKRIEG 23, a state-level techno-cultural meet at PB Siddhartha College of Arts & Science on January 4, 2023. Outshined 40 participants in this competition.
- Attained **3rd prize** in the technical event at Lakshya Fest, Lakireddy Bali Reddy College, which involved aptitude, verbal skills, and mock interviews. Competed against 180 participants on December 28, 2022.
- Elected as Opposition **Team Leader** for Mock Parliament during SYNTAX 2K23 Magazine launch event at Vikas College of Engineering & Technology.

EXTRA-CURRICULAR

- Served as **Technical Coordinator** for VIKSIT 2K23, managing the technical aspects of the event.
- Contributed as a Magazine Team Member for SYNTAX 2K23, involved in article and art collection for the magazine.
